

What Not To Flush

There are many things that should never EVER be flushed down the toilet, such as:

The Dirty Dozen

These items should never be flushed down the toilet

When these items are flushed down the toilet they can cause problems in our homes, wastewater treatment network and the environment

| | | |
|---|---|---|
|  Q-tips |  Baby wipes |  Facial wipes |
|  Cleansing pads |  Toilet roll tube |  Medicines |
|  Cigarettes |  Band aids |  Diapers |
|  Tampons/Applicators |  Food waste/grease |  Sanitary pads |

Why Care?

A recent sewerage blockage at a Secaucus home appears to have been caused by an accumulation of improperly disposed products that never should have been disposed in the toilet. Only toilet tissue paper, which is made to break down in water, is flushable. Avoid these costly mistakes, Please instruct cleaning staff to follow these guidelines.

Although the things that you may flush down the toilet may escape your home's plumbing, the sewage blockages that occur in the larger pipes affect many more people than just your family.

Please inform your cleaning staff of these guidelines.
